

I am submitting this comment in an effort to dissuade the Commission from voting on the media ownership rule change poised to occur on June 2nd. The hasty backroom tactics that the Chairman has pursued are a flagrant abuse of this commission's mandate to regard the public interest as it's number one priority. This commission needs to reevaluate it's role as civil servants and stewards of OUR airways before embarking on brazen and furtive gestures of patronage that wreak of malfeasance. The proposed rule change must be transparent and that will only occur after lengthy public discourse. Our republic depends on a free press and an informed public, this commission is mandated to provide for the public interest. Please consider this on June 2nd. Thank you.

Democratically Yours,
Matt Lady
